9th of November / 18h / GEM club

The Institute of Social Sciences and Humanities-Skopje is implementing the project "Analysis of the Policies and Laws Affecting the Freedom of Expression" as a part of the USAID project for Civic society implemented from the Foundation OpenSociety Macedonia.

The project aims to contribute towards intersectoral networking of the civil society in promoting and advancing freedom of expression as a fundamental human right through policy recommendations and public representation.

As a part of this project we will create a common platform for promotion of freedom of expression and engage the public through organizing debates between the actors of the civil society.

It is our pleasure to invite you to participate in the public debate "Censorship as a Main Method to Suppress the Freedom of Expression", which will be held on 9th of November, at 18h, in the GEM club (above Menada) in Skopje. The aim of the debate is to open a discussion about the censorship as a main method to prevent penalties, which greatly violate the freedom of expression.
